Background

Summary

Adrienne Papp is a Publicist at Atlantic Publicity, a highly regarded and successful publicity company, often referred to as the best. Adrienne combines her 5 different diplomas in different fields, which enables her to seeing any project through from the beginning to the end. Atlantic Publicity is a one stop shop. PR companies come to Atlantic for media power and most publicists are not journalists thus they cannot write about their clients themselves. Marketing and Advertising are yet different fields and as such usually handled by different companies. Understanding the economy in todays chaotic environment is crucial. That is where her Economist and MBA education comes in. Adrienne has experience in publishing, publicity, full feature editorial writing, editing (was Feature Editor at 12 different publications) venture capital, economics, advertising, and fund raising When all these ingredients come together success follows and the clients do not need 5 different companies to promote his/her projects or build his/her legacy. A highly energetic executive with years of professional success and complete dedication and personal attention to Atlantic's clientele is her trademark: "The Write People, the Right Publicity" TM

ATLANTIC PUBLICITY

April 1992 – Present (22 years 3 months) | Los Angeles, CA; New York City, NY; Aspen, CO; Washington D.C.

We tell the story of Extraordinary People with Extraordinary Stories. We are " The Write People, the Right Publicity" TM. Atlantic Publicity and its Publicist, Dame Adrienne Papp, is often referred to as the best in the industry.

Our slogan is " Because You Have a Story" TM

Adrienne's philosophy is simple: Behind every product, invention, service or legacy, there is the mind of its creator that is more intriguing to the public than anything else. She writes with sharp precision, but captivates through a unique writing style, a different angle: "I have the simplest of taste, I am always satisfied with the best" although it was said by Oscar Wilde, Papp never lets a piece out of her hand until her readers tear up by the end. Human stories associate the reader with the product or service.

When you want to set yourself apart from anyone else, Adrienne can make it happen with exquisite journalism. We advocate against advertisement and PR.

President of Atlantic Publisher, Atlantic Publicity, Editor in Chief of Spotlight Media Productions

Atlantic Publicity, Atlantic Publisher, Spotlight News Media

April 1992 – Present (22 years 3 months) | New York, Los Angeles, Aspen, Washington

We feature Extraordinary People with Extraordinary Stories. When you want to set yourself apart from everyone else, we can make it happen. We create widespread industry recognition through building a high profile image by publishing your unique story in key multi-media outlets. We create a direct rapport with your audience through our dedicated personal service and story telling, which combines sophistication, media awareness, and a touch of celebrity.

Atlantic Publicity, which has developed a loyal customer base over the past decade has the only talk programming available on American Airlines, Delta and US Airways. We will record your interview by phone from our location in the studio. We can draft suggested interview questions for your review and approval, or you can draft your own questions, and all creative, final talent, production is included. Distribution and re-usage rights are yours to keep and put it on your website or anywhere you wish! Your interview will also be rebroadcast on our sites.

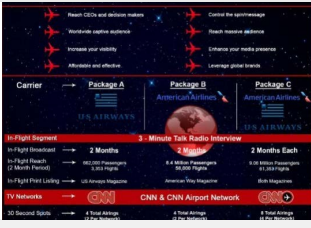

The people interviewed on these programs are recognized names, such as Bill Gates, Bill Clinton, Rick Perry, Steve Wynn, etc... and successful companies that are examples one way or another. There are about 15-20 people interviewed during the run of a full course two-month program and the entire segment repeats over and over for the duration of the flight. International flights make up about 20% and National flights make up about 80% of all American Airlines flights. These ratios are about the same for Delta. The program is also going to be on the chosen airline's magazine during both months. The magazine is in every seats back pocket and has a circulation of 300,000 every few weeks. The entire recording process is very turnkey. We only need 10-30 minutes of your time.

Passengers access the talk show by plugging their headset into the armrest. Of 12 total channels, we are the ONLY talk channel available and it's without commercial interruptions. The other eleven channels are music with the one movie audio channel. Our approximately 15-20 minute length plays in a continuous loop, which means your interview is broadcast in rotation multiple times per flight. Your segment will air in first, business and coach classes, an average of approximately three times per flight or averaging a total of 174,000 times (low estimate). From data supplied by flight attendants, we know that passengers pick up an average of 60 to 70 headsets per flight. We only need to reach a handful of listeners per flight to add up to a very large audience. Our listeners are affluent and influential demographics.

LOVED every minute of my life at Corvinus University.
